

## SERG International Workshop

Feb 8<sup>th</sup> - Feb 10<sup>th</sup>, 2011  
Delta Hotel, Victoria, British Columbia

### Table of Contents

<b>Welcome</b>		<b>1</b>
<b>Jim Snetsinger, ADM, Stewardship Division BC Ministry of Forests, Mines and Lands</b>		
<b>Tuesday Feb. 8<sup>th</sup> Forestry Conditions in British Columbia</b>		
<b>The past and current status of forest health in BC</b> Tim Ebata and Vince Nealis		<b>2</b>
<b>Hazard and risk rating of defoliators in BC</b> Lorraine Maclauchlan		<b>3</b>
<b>Vegetation Management</b>		
<b>The relative effects of woody and herbaceous vegetation on white pine regeneration – 10 year results</b> Pitt, D.G., A. Morneault, W. Parker, A. Stinson, L. Lanteigne and M. Hoepting	<b>2000/02 -2010</b>	<b>4</b>
<b>Aerial spraying for the control of competing vegetation in white pine shelterwoods</b> Andrée Morneault, Tom G. MacLean, Megan Smith	<b>2009/12 -2010</b>	<b>11</b>
<b>Early vegetation control for the regeneration of a single-cohort, intimate mixture of white spruce and trembling aspen on upland boreal sites – 7 year results.</b> Pitt, D.G., P.G. Comeau, W.C. Parker, D. MacIsaac, S. McPherson, M.K. Hoepting, A. Stinson and M. Mihajlovich.	<b>2002/06 -2010</b>	<b>28</b>
<b>PMRA Buffer Zone Refinement Strategy – New Developments</b> Ted Kuchnicki		<b>36</b>
<b>Forest Pest Management Products Development, Testing and Regulation</b>		
<b>Development of Baculovirus Technologies to Control Forest Pest</b> Renée Lapointe, Stefan Richard, David Thumbi, Jianhua Zhang, Benoit Morin and Christopher J. Lucarotti	<b>2006/02 -2010</b>	<b>37</b>
<b>Evaluation of the efficacy of two nucleopolyhedroviruses to suppress whitemarked tussock moth populations</b> Garrett Brodersen, Renée Lapointe, Graham Thurston, Chris Lucarotti and Dan Quiring	<b>2007/04 -2010</b>	<b>42</b>

<b>Baculoviruses in the western spruce budworm: Field evidence of potential use for biological control</b> Vince Nealis, Rod Turnquist, and Benoit Morin	2009/06 -2010	59
<b>Factors affecting host colonization success and subsequent performance of the brown spruce longhorn beetle, <i>Tetropium fuscum</i> (F.)</b> Leah Flaherty, Jon Sweeney, Deepa Pureswaran and Dan Quiring	2009/11 -2010	65
<b>Efficacy of pheromone-based methods of suppressing populations of brown spruce longhorned beetle (BSLB), <i>Tetropium fuscum</i> (F)</b> J. Sweeney, P. Silk, E. Kettela, and E. Hurley	2008/13 -2010	69
<b>Developing user-friendly spray formulations of pheromones for forest pest control</b> Chris Riley and Nelson Carter	2009/08 -2010	78
<b>SERG International Graduate Award Session</b>		
<b>Benefit-cost analysis of spruce budworm (<i>Choristoneura fumiferana</i> Clem.) control: incorporating market and non-market values</b> Wei-Yew Chang, Van A. Lantz, Chris R. Hennigar and David A. MacLean		87
<b>Host trees growth and survival responses after eastern hemlock looper defoliation</b> Javed Iqbal, David A. MacLean, and John A. Kershaw, Jr		100
<b>Spore dispersal and infection of <i>Dothistroma septosporum</i> in northwest British Columbia</b> Kennedy Boateng, Kathy Lewis and Alex Woods		108
<b>Bionomics of banded elm bark beetles and implications for Dutch elm disease management in Saskatchewan and Manitoba</b> J. Veilleux and N. J. Holliday	2009/03 -2010	120
<b>The genotypic diversity of <i>Geocaulon lividum</i>, and how it relates to phenotypic diversity and severity of disease caused by the fungal pathogen <i>Cronartium comandra</i> on two lodgepole pine trial plantation sites in Northern British Columbia</b> Theresa D. McMurchy-Ferguson and Kathy J. Lewis		128
<b>Industry Session</b>		
<b>Wednesday Feb. 9<sup>th</sup></b>		
<b>Pest Monitoring and Decision Support</b>		
<b>Components of Larval Spruce Budworm Oral Secretions and Frass as Potential Management Tools</b> Peter Silk and Eldon Eveleigh	2010/03	147

<b>The dynamics of endemic and rising spruce budworm populations</b> Jacques Régnière, Johanne Delisle, Deepa Pureswaran, Richard Trudel, Pierre Therrien	2005/05 -2010	149
<b>Mating-Success Allee Effect in Spruce Budworm</b> Jacques Régnière, <u>Johanne Delisle</u> , Deepa Pureswaran, Richard Trudel	2010/04	163
<b>Reanalysis of data from the SOPFIM spruce budworm mating disruption trial of 2008</b> Jacques Régnière, Richard Trudel		180
<b>The effects of precommercial thinning on the value chain of balsam fir-spruce stands in New Brunswick, Canada.</b> Pitt, D.G., L. Lanteigne, M. Hoepting, J. Plamondon, I. Duchesne, and P. Bicho		188
<b>Cost-benefit analysis of protecting balsam fir stands from insect defoliation in the Cape Breton Highlands, NS</b> Len Lanteigne, Wayne MacKinnon, James Farrell and Raj Chaini	2008/03 -2010	190
<b>Jack pine budworm in white pine</b> G. Thurston, E. Eveleigh, M. Rhainds and G. Forbes	2010/02	199
<b>Prevalence of <i>Nosema fumiferanae</i> in outbreak populations of the jack pine budworm</b> Kees van Frankenhuyzen, Carl Nystrom, and Yuehong Liu	2006/05 -2010	204
<b>Jack pine budworm impact assessment for the development of a jack pine budworm decision support system</b> Steven Oldford and Joe Meating	2008/05 -2010	219
<b>Determining the threat of mountain pine beetle range expansion in new habitats: The impact of phenology and survival variation on spread</b> Kathy Bleiker, Barry Cooke, Greg Smith	2010/07	226
<b>Individual-Based Model of Mountain Pine Beetle Ecophysiology</b> Jacques Régnière , Barbara Bentz , and James Powell	2008/11 -2010	232
<b>Managing hemlock looper in a changing environment</b> L. Royer, J. Delisle, J. Régnière and R. Sabbahi	2010/08	238
<b>Monitoring Pale-wing Gray Moth populations using oviposition traps</b> Dan Quiring, Drew Carleton and Graham Thurston	2009/07 -2010	241
<b>Small plot protection of spruce trees from attack by the tree-killing bark beetle, <i>Dendroctonus rufipennis</i>, using an antiaggregant.</b> G. Thurston, G. Forbes and K. Ryall	2006/08 -2010	249
<b>Evaluation of endemic entomopathogenic fungi and nematode species against Emerald Ash Borer</b> George Kyei-Poku, Shajahan Johny and Kees van Frankenhuyzen	2008/04 -2010	255
<b>Detection of emerald ash borer in asymptomatic urban ash trees</b> Krista Ryall, Jeff Fidgen, and Jean Turgeon	2010/05	269

<p><b>Evidence for a volatile sex pheromone in <i>Agrilus planipennis</i> Fairmaire (Coleoptera: Buprestidae) that synergizes attraction to a host foliar volatile; development of a sensitive detection tool</b></p> <p><u>Peter J. Silk</u>, Krista Ryall, Peter Mayo, Matthew A. Lemay, Gary Grant, Damon Crook, Allard Cossé<sup>8</sup> Ivich Fraser, Jon D. Sweeney, D. Barry Lyons, Doug Pitt, Taylor Scarr and David MaGee</p>	2008/06 -2010	270
<p><b>Thursday Feb. 10<sup>th</sup></b></p> <p><b>Advances and Implementation of New Technology</b></p>		
<p><b>Establishing a Wind Tunnel Facility and Aerial Application Spray Research Program</b> <b>Computational modeling of aerial sprays in the Wind Tunnel</b></p> <p>Ali Bagherpour, Ian McLeod, Sydney Ryan, Gordon Holloway, Andrew Gerber</p>	2006/03 -2010	276
<p><b>Protection Planning System (PROPS) Enhancements</b></p> <p>David A. MacLean, Javed Iqbal, Wei-Yew Chang, Chris Hennigar and Van A. Lantz</p>	2006/06 -2010	280
<p><b>Aerial Management System</b></p> <p>G.A. Cormier</p>	2007/07 -2010	288
<p><b>DropVision AG technology</b></p> <p>Michael Reynolds</p>		293
<p><b>SprayAdvisor Development in 2010</b></p> <p>Harold Thistle, Wayne Schou, Jackie Strager and Brian Richardson</p>	2008/15 -2010	294
<p><b>Improving the Capabilities of AGDISP to Model Forest Canopy Spray Deposition</b></p> <p>Andrew Hewitt</p>		299
<p><b>Latest Development on Drift Reduction Technologies and Path Forward</b></p> <p>Jay Ellenberger and Faruque Khan</p>		300
<p><b>Provincial Pest Status</b></p>		
<p><b>Newfoundland and Labrador</b></p> <p><b>Nova Scotia</b></p> <p><b>New Bruswick</b></p> <p><b>Quebec</b></p> <p><b>Ontario</b></p> <p><b>Manitoba</b></p> <p><b>Saskatchewan</b></p> <p><b>Alberta</b></p> <p><b>British Columbia</b></p>		301 305 308 315 318 327 332 341 356
<p><b>SERG International Terms of Reference</b></p>		361
<p><b>SERG International Long Term Plan</b></p>		377
<p><b>SERG International 2010 Work Plan</b></p>		380
